Dr. Wheelon

Here is the schedule as I constructed it last night. There are still some returns which the area desks hope to receive before we leave.

Some activities, particularly those in the latter part, require confirmation and others which are in the mill are not yet listed; e.g. arrangements in [] as noted in the trip papers I prepared for you. [] has also expressed an interest in talking with you at the Embassy.

In [] on 21 April, Nancy is scheduled for a tour and a theater matinee with []

This is to confirm that we will be met by Station office at each stop.

NOTE FOR: []

25X1A

25X1A

[] OTR, Chief, Mid-Career Course Planning, is setting up another mid-career group during May. He called to ask if 24 May would be a good date for DD/S&T to participate; specifically, Carl Duckett during the DD/S&T show and [] talking about computers in the afternoon and the usual DD/S&T panel answering questions in the evening. [] mentioned that Carl and Joe might stay all night if they wished. However, I believe unless they have a preference for this, that it would be best for them to go down the morning of the session.

At any rate, 24 May is on a Tuesday and that is Duckett's [] day. He will be unable to make it. I plan to call today and advise him to set a new date and will also tell him to check with you for arrangements.

[] also mentioned that the time for the Deputy Directors to give the full day presentation at Headquarters will be 24 June. On this date the Director, Colonel White and all the Deputy Directors talk to the group and answer questions which have been prepared in advance. At the moment, 24 June is as good as any day and I plan to tell him okay for Dr. Wheelon to ^{be} present then.

This is just to give you the background. I hope you don't mind picking it up from there.

Bill

I have called [] and he has changed the date.
